Muaz Ibne Ashraf

Computer Science Graduate | Backend, Web & AI/ML
+880 1537 320838 • muazibneashraf@gmail.com • Dhaka, Bangladesh • LinkedIn • GitHub

PROFILE

Computer Science graduate from BRAC University with hands-on experience building Python/Flask backend applications, database-driven systems, and AI/ML prototypes. Experienced in developing and deploying applications with OCR-based processing, real-time communication, and role-based workflows. Interested in entry-level Software Engineering, Backend Development, and AI/ML roles.

EDUCATION

B.Sc. in **Computer Science** | Department of **Computer Science and Engineering, BRAC University** — *Sep 2026*
HSC (Science) | **Rajuk Uttara Model College** | **GPA: 5.00/5.00** — *2020*
SSC (Science) | **Rajuk Uttara Model College** | **GPA: 5.00/5.00** — *2018*

TECHNICAL SKILLS

Languages	Python, Java, JavaScript, TypeScript, SQL, C/C++
Web & Backend	Flask, Node.js, React, Next.js, Jinja, HTML, CSS
Databases & ORM	PostgreSQL, MySQL, MongoDB, SQLite, SQLAlchemy
AI / ML	PyTorch, NumPy, CNN, LSTM/BiLSTM
Tools & Deployment	Git, GitHub, Docker, Render, Vercel

THESIS / PROJECTS

Mortality Risk and Health Suggestions for Critical Patients Using Extended LSTM and CNN — *Final Year Thesis*

Repository: github.com/muazibneashraf/ICU_Analyzer

- Developed a Flask-based healthcare application for ICU report upload, OCR-based lab-value extraction, mortality-risk analysis, health suggestions, consultation, and document sharing.
- Designed role-based admin, doctor, and patient workflows with verification, secure login, dashboards, report review, profiles, and communication.
- Proposed a hybrid CNN + LSTM/BiLSTM approach and documented requirements, diagrams, testing, ethics, limitations, and future work.

LifeLine — *Course Group Project | 2025 - 2026*

GitHub: Pranto-Roy-10/LifeLine | **Live:** lifeline-rlf3.onrender.com

- Contributed to a community-help platform with requests/offers, urgency and location fields, interactive maps, real-time chat, suggestions, availability indicators, and trust badges.
- Worked with Flask, SQLAlchemy, Flask-Migrate, Flask-SocketIO, session/JWT authentication, SQLite/PostgreSQL, Jinja, and Render.

College Admission Lottery Foundation — *Personal Web Application | 2026*

Repository: github.com/muazibneashraf/College_Admission_Lottery_Foundation

- Built a modular Python/Flask application with organized frontend assets, API and migration structure, environment configuration, and Render deployment setup.

Portfolio & Content Studio — *Personal Web Application | 2026*

- Built a responsive Next.js, React, and TypeScript portfolio with technical case studies, an interactive canvas network, project walkthroughs, and reduced-motion support.
- Connected server-rendered pages to an authenticated content API and admin studio, with JSON/optional Redis persistence, a contact inbox, and editable homepage content.

LEADERSHIP & VOLUNTEER EXPERIENCE

Senior Executive, Organising & Management | BRAC University Business Club - BIZ BEE — *Jan 2022 - Jan 2024*
Junior Executive | BRAC University Entrepreneurship Development Forum — *Feb 2022 - 2024*
General Member | BRAC University Computer Club — *Jan 2022 - Present*
Secretary, Communication | Rajuk College Art Club — *Dec 2019 - Dec 2020*
Volunteer | Ashia Foundation — *Nov 2018 - Present*

ADDITIONAL INFORMATION

Languages: Bangla (Native), English (Academic/Professional working proficiency), French.
